21st October
INORGANIC STEREOCHEMISTRY
Dr. T.R. Beattie (University of London, King's College)

4th November
QUANTITATIVE EVALUATION OF SUBSTITUENT EFFECTS FROM ELECTRONIC SPECTROSCOPY
Dr. J.N. Murrell (University of Sheffield)

18th November
SUBSTITUTION, ELIMINATION AND OLEFINIC REARRANGEMENT
Dr. N.C. Whiting (University of Oxford)

2nd December
MAGNETIC RELAXATION
Dr. R.E. Richards (University of Oxford)

16th December
SOME ALICYCLIC REARRANGEMENTS
Dr. A.J. Bellamy (Research Associate)
PHYSICS COLLOQUIA

The following Colloquia will take place on Fridays

11th October  MAGNETISM AND COLOUR
Professor M.H.L. Pryce, F.R.S. (University of Bristol)
Room 102  5.15 p.m.

25th October  PIONS AND NUCLEONS
Professor J. Hamilton (University College, London)

8th November  THE FERMI SURFACES OF THE ALKALI METALS
Dr. D. Shoenberg, F.R.S. (Royal Society Mond Laboratory, Cambridge)
Room 103  4.00 p.m.

22nd November  DEVELOPMENTS IN HIGH RESOLUTION OPTICAL SPECTROSCOPY
Professor D.A. Jackson, F.R.S. (Laboratoire A. Cotton, Bellevue)
Room 102  4.00 p.m.

6th December  SPECTROSCOPY AT EXTREME INFRA-RED WAVELENGTHS
Professor G.O. Jones (Queen Mary College, London)
Room 103  4.00 p.m.

THEORETICAL PHYSICS SEMINARS

The following Seminars will take place on Tuesdays at 4.45 p.m.
in Room 103

15th October  SIMPLE MODELS IN GENERAL RELATIVITY
Dr. Handsel Davies (Clarendon Laboratory, Oxford)

29th October  A NEW METHOD OF CALCULATION IN THE MANY-BODY PROBLEM
Dr. S.F. Edwards (University of Manchester)

12th November  THE BINDING ENERGIES OF HYPERNUCLEI
Dr. J.N. Soper (Atomic Energy Research Establishment, Harwell)

26th November  VIBRATIONS OF DISORDERED LATTICES
Dr. P. Dean (National Physical Laboratory)

SOCIETY NOTICES

Archaeological Society. The first speaker will be Mr. D. Thomson, B.A.
but the date is still arbitrary. Details for this and digging will be
posted on the notice board. The Saxon graveyard has been temporarily
abandoned and work will probably be in Lewes. All are welcome - even the
uninitiated.

The Astronomical Society acquired an eight inch telescope towards the end
of last session, and this should be set up for observations early this term.
A programme of observations will be drawn up. ALL FRESHERS who are inter-
ested in joining in this work are welcome. Make sure you see Mike Brinca
or Francis Andrews about this.
SOCIETY NOTICES (continued)

Film Society. In addition to its usual weekly programme, the Film Society is arranging an Ingmar Bergman Festival between 14th October and 18th October in the Refectory and a Contemporary Britain Season during November and December.

Geographical Society. A coach trip round Sussex, to be conducted by Dr. Yeats, is being arranged for Saturday, 19th October. Cost of tickets and time of departure to be announced.

Rhythm Society. The Rhythm Society has invited several well-known folk singers down this term - they include Rory McLean, Alex Campbell, John Baldry, who are all well-known B.B.C. personalities. We are also hoping to have jazz-hops with the University Jazz Band on Sunday afternoons at Falmer House.

Meetings take place on Wednesday evenings in the music room. Visitors are welcome to come - atmosphere informal, just sit back and be entertained. Watch notice-boards for details or ask David Tutt, Susan Rose or Jackie Swain.

UNIVERSITY NEWS

COUNCIL

The Council has unanimously re-elected Dr. S.M. Caffyn and Mrs. J.
Gow as respectively Chairman and Vice-Chairman of the Council for the
academic year 1963-64.

EXAMINATION RESULTS

At the end of the academic year, twenty undergraduates (seven Arts
and thirteen Science) were asked to withdraw from the University after
they had twice failed in the Preliminary Examination and after their pro-
spects of future success had been thoroughly investigated by the Student
Progress Committee.
UNIVERSITY TEACHING

The Academic Board has recommended that Wednesday and Saturday afternoons should be free for student sports but that on other days of the week tutorials, seminars, practical classes and lectures must be given priority.

---------------------

ARTS/SCIENCE SCHEME

The scheme for joint seminars for arts and science faculty and students will come into operation this term. Each seminar will meet four times during the term and will consist half of science undergraduates and half of arts or social studies undergraduates under the joint direction of a scientist and a specialist in arts or social studies. The topics to be discussed are not rigidly fixed, but the kind of topic will be the application of science in industry and government, the moral role of the scientist, innovations and their application, information theory, creative achievement in the arts and sciences, and so on.

In addition to the seminars, two lecture series related to the scheme will be given. The first, by Professor Rogers, will be held on Wednesdays at 11.30 a.m. and is entitled "Astronomy and the Development of Physical Theory". The second, given by Dr. Stephen Toulmin of the Nuffield Foundation Unit for the History of Ideas will be held on Tuesdays at 4.45 p.m. and is entitled "Why not think as we do."

---------------------

READING BREAK

It has been recommended to the Senate that a reading break for all undergraduates should be held from 18th to 23rd November. During this week there will be no formal teaching so that more time is available for reading.

---------------------

B.B.C. TELEVISION LECTURES

Professor Hugh Trevor-Roper, Regius Professor of Modern History in the University of Oxford, is to give a series of lectures in the University for B.B.C. Television. The title of the whole series is THE RISE OF CHRISTIAN EUROPE, and the titles of the first four lectures are -

1. The Great Recovery
2. The end of Antiquity
3. The Dark Age of Europe
4. The Crusades: Europe's Counter Attack

The lectures will be delivered in the large Physics Lecture Theatre and will be filmed there by B.B.C. Television. The first five will be given from Monday 14th to Friday 18th October from 8.00 to 8.45 p.m., but the B.B.C. requests that the audience should be seated by 7.45 p.m. The last lecture will be given on Sunday, 20th October at 2.30 p.m.; the audience should be seated by 2.15 p.m.

All students and members of faculty are invited to attend.

---------------------
ROYAL VISIT TO THE UNIVERSITY

The Duke of Edinburgh is to visit the University on 1st November. It is expected that he will be in the University between about 11.30 a.m. and 3.00 p.m., and that he will have lunch in the University and make a tour of the buildings. Fuller details of the visit will be announced later.

-------------------

ARTS GENERAL OFFICE

The General Office for the new Arts Building is on the ground floor in adjoining rooms -Nos. G.45 - G.46.

Students are reminded that all official papers, such as exact forms and applications for places, can be obtained from the General Office.

All internal mail can be given to the porters for distribution, thus avoiding unnecessary journeys. External mail when stamped should be handed either to the porters or left in the collecting tray in the General Office. Miss J. J. Hall (whose room is G.44) will act as supervisor to the General Office, and all enquiries must be made through her.

-------------------

EXEATS

It will be noted by undergraduates that the clauses in the current Regulations which concern exeats have been amended.

It is no longer necessary to procure an exact when it is intended to return to a Guest House after midnight. Instead it is required that any undergraduate who returns to his Guest House after midnight must either have entered the appropriate details in the signing-out book, before leaving the Guest House, or have telephoned the Guest House before 10.30 p.m. of the evening in question, so that they can be entered in the book.

Exeats are, however, still required if any undergraduate intends to be absent from his place of residence (guest house, flat or lodgings) for more than 24 consecutive hours.

Exeats forms may be obtained from the Porter's Desk in Palmer House or from the Proctor's Office, room 1.51 in the Arts Building. It should be noted that such forms need not be returned in person to the office; the internal mail service is there to be used by all members of the University.

-------------------

LAUNNS

Members of the University will recall that last term we were advised by those who had laid the lawns by Palmer House not to walk on them for the time being.

The lawns on the side of Palmer House nearest the road have now "settled" sufficiently for it to be possible to allow them to be used. It should, however, be noted that, if paths are worn as the result of short-cuts being taken across them, it may become necessary once again to restrict their use.

-------------------
STILETTO HEELS

In order to avoid damage to the floors, members of the University are requested to ensure that female guests cover their stiletto heels with protective heel-caps when they are walking through the University buildings. Protective heel-caps will be available at the Head Porter's desk, price 7d.

------------------

CAR PARKS

The existing car park is soon to be marked out to ensure a better use of space. An additional park is to be provided between the Boiler House and the bridge. Work on this should be started in the near future.

------------------

CHAPLAINCY NOTES

The Rev. John Cotton, formerly Home Secretary of the Society for the Promotion of Christian Knowledge has been appointed as Anglican Chaplain for the University by the Bishop of Chichester. He is now in residence at the Chaplaincy Centre, 12 Hanover Crescent, Brighton.

On Sunday, 27th October at 5.00 p.m. in the Junior Common Room the Rt. Hon. Sir Edward Boyle, M.P. (Minister of Education) will speak on "Conservatism and the Future in a Christian Interpretation". Anyone wishing to bring a guest from outside the University should consult the Chaplain first.

------------------

VISITING FACULTY

Professor Eric Rogers, Professor of Physics, Palmer Physical Laboratory, Princeton University, New Jersey, will be remaining in the University for the session 1963-64, with the title of Visiting Professor of Experimental Physics.

Professor Robert P. Crawford, Associate Professor of Speech and Broadcasting at Queen's College, New York, will be visiting the University during the spring and summer terms of this session. Professor Crawford is participating in an educational television project in this country.

Professor Leroy Ziff, Associate Professor of English in the University of California (Berkeley), will be visiting the University during the summer term, 1964. Professor Ziff is interested in the field of American studies, especially American Literature.

------------------

DISTINCTIONS

The American Chemical Society have announced that the 1964 Frederic Stanley Kipping Award in Organosilicon Chemistry will be made to Professor C. Eaborn.
DONATIONS TO THE UNIVERSITY

The following donations and gifts have been received by the University -

The American Embassy Wives' Association has donated a number of books to the Library.

The Memorial University of Newfoundland has donated a special chair.

Cobley's made up free of charge all the honorary graduates' robes required for the Installation of the Chancellor; the material was given by Mr. N. Sokers of the West Cumberland Silk Mills Ltd.

The Pilgrim Trust has made a contribution of £2,500 towards the cost of restoring the dining room in Falmer House.

Brighton Corporation is contributing the remainder of the £5,000 required.

UNION NEWS

A busy term lies ahead for the Union. At the first General Meetings (dates to be announced later) last year's accounts and the budget for the coming year are to be presented. Arrangements will be made for electing four members to the Union Committee. A plan for co-ordinating all publications will be presented. The scheme for a W.U.S. Scholarship will be discussed further and it is hoped to be able to announce that a series of exhibitions of paintings will have been secured to replace those at the moment in the Junior Common Room. The Union Committee's main task will be to arrange for proper representation on the many Joint University committees. Further work will be done on the new Constitution which should be presented to the Union later this term. The Union has also been asked to participate in a campaign for the Relief of Brighton Cancer Sufferers, and a Charity Dance will take place towards the end of term. Further details to be announced soon.

-----------------

THE UNIVERSITY BOOKSHOP

The University bookshop, situated in the cloisters of Falmer House, is opening at the beginning of October 1963. The need for such a shop on the Falmer site was made clear during the first session there. In particular undergraduates were not immediately able to obtain the books which they wished to purchase, and the shop has been established this early in the University's life to permit them to do so. It will further try to provide the sort of service that all members of the University wish from a bookshop, and its success will largely depend on the support which they give to it. This will be especially true during the first year or two when the University population will be small. Success, moreover, will not only depend on the number of books bought but also on advice, particularly from tutors, about books which are recommended and wanted.

The problems of book provision in a university employing the tutorial system of teaching are pressing and complicated. They cannot begin to be
THE UNIVERSITY BOOKSHOP (continued)

adequately solved unless undergraduates buy some books for themselves. To allow them to do so, a sum of £25 per annum for the purchase of books and stationery is included in their grants. As a corollary of this, grants to university libraries are not sufficient to permit massive multiplication of basic titles. Their funds are better devoted to providing a comprehensive collection of books and periodicals with duplication of those which it is not reasonable to expect undergraduates to purchase for themselves.

The University has decided to run the bookshop itself rather than to invite a commercial firm of booksellers to do this because books are essential to teaching and learning and the shop's policy must therefore be framed with academic needs primarily in mind. It is now possible to make books available not only in the library but for sale. Undergraduates will doubtless still be sometimes disappointed in their urgent attempts to find books in time for weekly essays to be written, but a new opportunity exists.

An advisory committee is being set up with faculty representatives from each school as well as undergraduates. There will also be a smaller management committee. The Manager, Mr. H. Hunter, will be delighted to discuss the shop's service with anyone. During the past few weeks he has been hard at work ordering the initial stock and trying to foresee demands. All this preparation has been done while the shop itself was still in the builder's hands and he asks that any teething troubles at the beginning of the term may not be too harshly judged.

The shop will be open from 9.00 a.m. to 5.30 p.m. on Mondays to Fridays and from 9.00 a.m. to noon on Saturdays. In addition to books some stationery will be on sale.

LEWES MUSIC CIRCLE

Over the winter, the Lewes Music Circle is presenting two series of lectures. The first, running from October to December, is entitled Composers and their music, and the speakers will be Alexander Goehr, Gordon Jacob, Alan Rawsthorne, Richard Rodney Bennett, John Gardner and Edmund Rubbra. The second series will be given by Professor Philip Cannon, Professor of Composition and Harmony and Counterpoint in the Royal College of Music; this will run from January to March.

Further particulars can be obtained from the Secretary, Miss E. Davies, Chantry Cottage, Southover, Lewes.
