This publication is intended for members of the University of Sussex.
Extracts from it should not be published without the Editors' permission.

While every effort will be made to ensure the accuracy of the information which the Editors pass on, readers will appreciate that this is a news-bulletin and not an official 'Gazette'.

Correspondence, etc. relating to the Bulletin should be addressed to J. Lively, Arts Building, Falmer.

The eighteenth issue of the Bulletin will appear on Tuesday, 27th October, 1964.
DIARY OF EVENTS

Since the Union is to issue a frequent list of society meetings, and the Wine Press will also be giving up-to-date information about them, it has been decided to end the Diary of Events. The Bulletin will continue to include Society Notices. Any society secretary who wishes to make use of this should give material to the Student Editor of the Bulletin.

CHEMISTRY COLLOQUIA

The following colloquia will be held in PB 103 on Mondays and will start at 4.45 p.m. Third year undergraduates are invited to attend.

October 5th  'The Study of Some Stereochemical Features of Carbohydrates using N.M.R. and I.R. techniques'
             Dr. A. H. Haines

October 19th 'Chemical Applications of the Mossbauer Effect'
             Professor N. N. Greenwood (University of Newcastle-upon-Tyne)

November 2nd 'Calculation of Electron Distribution in Molecules'
               Mr. H. D. B. Jenkins

November 16th 'Homogeneous Catalysis by Noble Metal Salts'
                Dr. G. C. Bond (Johnson, Matthey and Co. Ltd.)

November 30th 'A Comparison of the Addition of Dienophiles to Anthracene and Bicycloheptadiene'
               Professor R. C. Cookson (University of Southampton)

December 14th 'Some Aspects of Aluminium-Nitrogen Chemistry'
                Mr. J. K. Gilbert

ECONOMICS COLLOQUIA

About three colloquia a term will be held for all students majoring in Economics and Economics postgraduate students. They will be held on Tuesday at 5.45 p.m. in the Arts Common Room. It is intended to invite outside speakers to address the colloquia.

SEMINARS AND POSTGRADUATE COURSES IN MATHEMATICS

Mr. I. G. Macdonald (Magdalen College, Oxford) will lecture on 'The Grothendieck Approach to Algebraic Geometry' on alternate Fridays, starting October 16th, in Room PB 237 at 3.15 - 4.15 p.m. and 4.45 - 5.45 p.m.

Seminars will be held at 4.15 p.m. in Room PB 237. The following meetings have so far been arranged; further lectures will be announced later.

Tuesday, October 6th  'A Characteristic of the Ball'
                      Dr. S. Swierczkowski

Tuesday, October 13th 'Kleene's Curious Algebra'
                      Dr. J. Conway (Sidney Sussex College, Cambridge)
Tuesday, October 20th  
'CATEGORIES'  
Dr. G. C. Wraith  

Postgraduate Courses (starting October 5th)  

Mondays, 2.15 p.m. PB 103 'Magnetohydrodynamics'  
Dr. Ruth Rogers  

Thursdays, 2.15 p.m. PB 212 'Homology of Groups'  
Dr. J. A. Green  

---  

PHILOSOPHY SEMINAR  

A regular seminar primarily intended for philosophers will be held every Tuesday at 5.00 p.m. in AB 104. Occasionally distinguished outside speakers will address it. It has been arranged so far that Mr. David Pole of King's College, London and author of a well-known book on Wittgenstein will address the seminar on the 27th October and that Professor Gilbert Ryle (of 'Concept of Mind' fame) will address it on the 17th November.  

---  

PHYSICS COLLOQUIA  

The following colloquia will be held in Room 103 on Thursdays and will start at 4.45 p.m.  

October 15th 'Information Theory'  
Mr. Peter Trier, M.A., M.I.E.E.  
(Director - Mullard Research Laboratories, Redhill, Surrey)  

October 29th 'Some recent researches on the Ionosphere'  
Mr. J. A. Ratcliffe, C.B.E., F.R.S.  
(Director - D.S.I.R. Radio Research Station, Slough, Bucks.)  

November 12th To be announced  
November 26th 'Elementary Particles'  
Professor Paul T. Matthews, F.R.S.  
(Imperial College of Science and Technology)  

---  

LECTURES  

November 27th Subject to be announced  
Professor P. M. S. Blackett  
(Professor of Physics, Imperial College of Science and Technology)  

Arts/Science  

Two lectures have so far been arranged in connection with the Arts/Science scheme.  

The lectures will be held on Fridays at 5.45 p.m. in PB 103  

November 6th 'Mathematics and Social Sciences'  
Professor R. Stone (University of Cambridge)  

November 20th 'Science and Literature in the Seventeenth Century'  
Professor D. Davie (University of Essex)  

---
The Modern European Mind

Mondays and Tuesdays 11.30 a.m.

A forum of lectures in which members of various schools will discuss characteristic problems of Western Culture during the last hundred years.

THIS COURSE WILL BE REPEATED EVERY YEAR.
FRESHERS ARE NOT OBLIGED TO ATTEND. ACCOMMODATION MAY BE LIMITED.

A seminar will be arranged on Thursdays at 11.30 a.m. later in the term if undergraduates doing MEM tutorials want further discussion of the set texts.

Religion and the Rise of Capitalism

The speakers and subjects in this course of lectures will be:-

October 6th
'Tawney: Man and Historian'
Professor A. Briggs

October 13th
'The Renaissance Capitalist'
Mr. M. J. Kitch

October 20th
'The Economic and Social Background of the Sixteenth and Seventeenth Centuries'
Mr. M. J. Hawkins

October 27th
'Puritans and Puritanism'
Dr. H. F. Kearney

November 3rd
'The Scientific Study of Society'
Dr. D. N. Winch

November 10th
'Marx and Ideology'
Mr. J. F. Lively

November 17th
'Veber and Sociology'
Dr. H. O. Pappé

November 24th
'Christian Sociology'
Mr. H. R. Kedward

December 1st
'Evolution of Modern Capitalism'
Professor A. Briggs

December 8th
Subject to be announced
Professor D. A. Low or Dr. B. D. Graham

Russian History, 1800 to present day

This course will deal generally with nineteenth century Russian institutions, the revolutionary movement and Soviet institutions. Particular attention will be paid to three aspects of pre- and post- 1917 history, agriculture and the peasantry, industrialisation and foreign policy.

World Population and Resources

A course of lectures on this subject will be given by a number of members of Faculty on Tuesdays during the autumn term, and anyone interested is invited to attend, whether taking this particular paper or not.

The lectures will be in AB 157 at 4.45, and the first will be on

Tuesday, October 6th
'World Population'
Professor T. H. Elkins
SOCIETY NOTICES

Art Society

There will be an informal art society meeting on Tuesday, October 6th. New members welcome: discussion about term's activities and character of the society; general discussion; sketching or clay modelling if wanted; bring drink or buy it there. Details of time and place on noticeboards.

Christian Union

October 8th
'Bible Study - Ephesians I. 1-14'
Mr. W. H. Cherry
Secretary Ceylon and India General Mission

October 15th
'Bible Study - Ephesians II. 15-22'
Rev. G. W. Kirby, M.A.
General Secretary Evangelical Alliance

October 22nd
'Bible Study - Ephesians II. 1-10'
Rev. G. B. Bridgman
Vicar St. Mary's Southgate Crawley

October 27th
Missionary Meeting: 'Pakistan Today'
Miss Vienne Stacey
Bible and Medical Missionary Fellowship

October 29th
'Bible Study - Ephesians II. 11-22'
Rev. E. G. Rudman
Minister Holland Road Baptist Church Hove

November 5th
'Bible Study - Ephesians III. 1-21'
Rev. F. Walker
Travelling Secretary Inter-Varsity Fellowship

November 12th
'Bible Study - Ephesians IV. 1-16'
Mr. K. F. Brookes
Assistant Headmaster St. Andrew's School Hove

November 19th
'Bible Study - Ephesians IV. 17- V. 2'
Rev. D. S. Page, B.D.
Minister Burgess Hill Baptist Church

November 26th
'Bible Study - Ephesians V. 3-20'
Rev. E. G. Smith, M.A.
Vicar All Saint's Patcham Brighton

December 3rd
'Bible Study - Ephesians V. 21 - VI. 9'
Rev. G. N. Shaw, M.A.
Rector of St. Leonard's-on-Sea

December 10th
'Bible Study - Ephesians VI. 10-24'
Mr. H. E. Pope, M.A.
Senior Languages Master Lewes Grammar School

Humanist Meetings

October 7th
'What Humanism is About.'
Mr. H. J. Blackham
Director of B.H.A., Editor of 'Objections to Humanism'

October 29th
'The Psychology of Morals'
Mr. M. Argyle
Institute of Experimental Psychology

December 3rd
'God and Evil'
Professor P. H. Nowell-Smith
University of Kent
Literary Society

October 21st  'Poetry Reading'
Mr. G. Macbeth

October 26th  'Tennyson'
Mr. C. Ricks

November 9th  (probably)'The Literature of the Concentration Camps'
Mr. A. A. Alvarez

Further dates have not yet been settled.

The Rhythm Society: Folk Forum

The Rhythm Society will in future be known as the Folk Forum. This is because the Rhythm Society which was originally formed with the intention of furthering interest in all kinds of music, has tended for the past two years to deal specifically with Folk Music.

Forums will in future be held on Tuesday evenings in the Music Room (unless otherwise stated), and will begin at 7.15 p.m. With the aid of an increased budget, and an increased membership, we hope to provide varied and high quality entertainment. Once a fortnight two folk singers and instrumentalists will perform together with a core of native talent. On alternate Tuesdays there will be a Folk Workshop details of which can be obtained from the first issue this term of Wine Press, or from Susan Rose.

Tuesday, 6th October  Red Sullivan and Wally Wighton
Music Room. 7.15 p.m.

Red is an ex-merchant seaman, and a fine exponent of sea-songs and 'hearty ballads.' Wally is a talented guitarist and folk singer who has a regular spot on I.T.V.

Tuesday, 20th October  Martin Windsor and Linda Drew
7.15 p.m.

Linda is a Canadian. Powerful and moving blues singer and guitarist. Martin has the most unusual voice on the folk scene, and plays guitar.

Tuesday, 3rd November  Nigel Denver

One of the most accomplished singers on the scene, with a vast repertoire.

Details of the rest of the term's activities will be announced shortly.

_______________________________
UNIVERSITY NEWS

GENERAL

Finals Examinations

Thirty-eight candidates took the Finals Examinations last term, all majoring in Arts and Social Studies subjects. None were placed in the first class, thirteen in the upper division of the second class, seventeen in the lower division of the second class, seven in the third class and one was awarded a Pass degree.

Elections to the Senate

Elections were held at the end of the Summer term to appoint representatives of non-professorial members of faculty on Senate. The following were elected as official non-professorial representatives:-

Dr. L. Allen, Mr. J. F. Lively, Dr. R. E. Turner, Dr. C. Jenkins, Dr. R. D. Guthrie, Dr. R. H. Rogers and Dr. P. H. Nidditch. The following were elected as the co-opted non-professorial representatives:-

Dr. P. L. Cook, Mr. E. C. Dommen, Mr. S. B. John, Dr. G. Salgado, Dr. P. D. Robinson, Dr. J. D. Smith, Dr. R. A. Jackson and Mr. M. Lipton.
Senate Representatives on Council

The Senate has elected the following as its representatives on Council:-
Professors Barna, Blin-Stoyle, Eaborn, Smith and Wight, Mr. Lively and Dr. Turner.

Appointments

The following appointments are in addition to those published in the Bulletin on 24th April, 1964.

1964–1965

Chemistry:

Reader

M. F. Lappert, Ph.D., D.Sc. (London), F.R.I.C., formerly Senior Lecturer in Chemistry at the Manchester College of Science and Technology.

Assistant Lecturer

D. R. M. Walton, B.Sc. (London), M.Sc., Ph.D. (Leicester), formerly Research Associate in the University of Sussex.

Developmental and Educational Psychology

Visiting Tutor

Moya C. Tyson, B.A. (Panjab), B.Sc. (Econ.), Ph.D. (London), formerly research assistant at University College, London.

English:

Lecturer

F. Smith, M.A. (Manchester) formerly Head of English at Cambridge Grammar School for Boys.

French:

Visiting Lecturer

E. Schulkind, B.A. (New York), Doct.-de-l'Univ. de Paris, formerly Assistant Professor of French in the University of Chicago.

Assistant Lecturer

C. L. Campos, L-ès-L. (Paris), Ph.D. (Cantab.), formerly part-time supervisor in French in the University of Cambridge.

Geography:

Lecturers

I. L. Griffiths, B.Sc. (Econ.), Ph.D. (London), formerly Research Officer in the Industrial Relations Department of the National Coal Board.

B. T. Wood, B.A. (Wales), formerly Soddy Research Fellow in the University of Sussex.

History:

Lecturer

J. Roselli, B.A. (Swarthmore), Ph.D. (Cantab.), formerly on the staff of The Guardian.

Assistant Lecturer

M. J. Kitch, B.A. (Oxon.), formerly a research student of Merton College, Oxford.
History and Philosophy of Science:

Lecturer

S. C. Kapoor, B.Sc. (Panjab), M.A. (Delhi, Ph.D. (Paris), formerly Lecturer in the History and Philosophy of Science in the University of Cambridge.

Mathematics:

Lecturers

W. Parry, B.Sc. Ph.D. (London), formerly Lecturer in Pure Mathematics at the University of Birmingham.

L. C. Sulski, B.Sc. (Buffalo), Ph.D. (Notre Dame).

D. Rutovitz, M.Sc. Ph.D. (Cape Town), formerly Senior Lecturer in Mathematics at the Royal College, Nairobi.

Philosophy:

Reader

P. H. Nidditch, M.A., Ph.D. (London), formerly Senior Lecturer in Philosophy in the University of Sussex.

Assistant Lecturer

B. Hodgkinson, formerly an undergraduate at Balliol College, Oxford.

Physics (Experimental):

Lecturers

M. Springford, B.Sc. (Durham), Ph.D. (Hull), A. Inst. P., formerly Research Fellow of the National Research Council of Canada.

A. J. Walton, B.A., M.Sc. (Dublin), formerly research student at the Cavendish Laboratory, Cambridge.

Physics (Theoretical):

Reader

J. P. Elliott, B.Sc., Ph.D. (London), at present Senior Lecturer in Physics at the University of Sussex.

Russian:

Lecturer

S. Hackel, B.A. (Oxon.), formerly Senior History Master at Barnes County Secondary Boys' School.

1965-1966

American Studies:

Professor

M. Cunliffe, B.Litt., M.A. (Oxon.), M.A., (Manchester, at present Professor of American History and Institutions in the University of Manchester.

Applied Sciences:

Professors

R. W. Cahn, B.A., Ph.D., Sc.D., (Cantab.), at present Professor of Materials Technology in the University College of Bangor.
Professors (continued)

J. C. West, Ph.D., D.Sc. (Manchester), at present Professor of Electrical Engineering in the Queen's University, Belfast.

Biological Sciences:

Reader

E. A. Barnard, B.Sc., Ph.D. (London), at present Director of the Molecular Enzymology Unit, University of Buffalo, U.S.A.

Lecturer

R. J. Cole, B.Sc., Ph.D. (London), at present Research Fellow in the Department of Biochemistry, University of Glasgow.

Chemistry:

Lecturer

P. Simpson, M.A., Ph.D. (Cantab.), at present D.S.I.R. Research Associate at the University of Sussex.

English:

Assistant Lecturer

D. P. Morse, B.A. (Cantab.), at present research student at King's College, Cambridge.

History:

Lecturers

R. Brown, B.A., Cert. Ed. (Cantab.), at present Lecturer in History at University College of Rhodesia and Nyasaland.

W. D. J. Cargill Thompson, M.A., Ph.D. (Cantab.), at present Feilow of King's College, Cambridge.

Mathematics:

Lecturer

Philosophy of Science:

Senior Lecturer

H. R. Post, M.A. (Oxon.), Ph.D. (Chicago), at present Senior Lecturer in Physics at Chelsea College of Science and Technology.

Physics (Experimental):

Lecturer

D. S. Betts, M.A., D. Phil. (Oxon.), at present Research Fellow at the Clarendon Laboratory, Oxford.

Psychology:

Professors

Marie Jahoda, Dr. Phil. (Vienna), at present Head of the Department of Psychology and Social Science at Brunel College of Advanced Technology.

N. S. Sutherland, M.A., D. Phil., (Oxon.), at present Lecturer in Experimental Psychology in the University of Oxford.
Russian:

Assistant Lecturers

C. G. Bearne, B.A. (Birmingham), at present research student at the University of Birmingham.

M. V. Jones, B.A. (Nottingham), at present research student at the University of Nottingham.

Appointment of Proctor

Mr. J. B. Wilson, Lecturer in Philosophy, has been appointed Proctor.

Experimental Scheme for Early Leavers

This scheme has been operating for the first time this year. It has been set up to give a method of entry to the University to applicants of outstanding merit who have unavoidably been unable to pursue their previous education up to the age of 18, and who, therefore, do not have the normal entrance qualifications for Universities. A total of 134 eligible applications were received and, after assessment and interview, 8 candidates were offered places; four of these candidates intend to major in Philosophy, two in English and one each in Economics and Geography.

Modern European Mind Film Season

Following last term's successful American Film in American Culture season, the Film Society is collaborating this term with the School of European Studies in presenting a programme of recent French films. This is designed to show some of the revolutionary experimentation that has been the hallmark of the French cinema since the late 1950s. The parallels in French literature and thought will doubtless be elucidated in the Modern European Mind lecture course.

October 5th  'Lift to the Scaffold'
             Malle

October 12th 'Hiroshima Mon Amour'
                Resnais

October 19th 'Les Bonnes Femmes'
                Chabrol

October 26th 'Paris Nous Appartient'
                Rivette

November 2nd  'Zazie Dans Le Metro'
                Malle

November 9th  'Crossing of the Rhine'
                Cayette

November 16th 'Le Rendez-Vous De Minuit'
                Leenhardt

November 23rd 'Leon Morin, Pretre'
                Melville

These will be shown in PB 102 on Mondays at 4.45 p.m.

Park House

A House Committee for the newly opened Park House has been appointed. The Chairman, who is a full-time member of the teaching faculty and will be resident in a house next to the House, is Mr. C. R. Baxter. The postgraduate deputy chairman is Mr. R. C. Cole. The undergraduate members are Mr. Francis Andrews, Mr. Robert Lacey, Mr. Roger Marsden, Mr. John Milligan and Mr. R. D. Williams. Two more undergraduates are being invited to join the committee. Once the House is established, the committee will be elected. These elections will be held at the end of the Autumn Term.
Visit of H. M. The Queen

The Queen is to visit the University on Friday, November 13th. Details of arrangements will be announced later.

Safety Precautions on Lewes Road

During the summer, the University was informed that the underpass opposite the University would not be ready, as was previously thought, for October 1964. A temporary bridge has, therefore, been built over the dual carriageway to give access to the bus stop and the station. All members of the University are urged to use this bridge and not to cross the road by any other route. It is expected that the underpass will be finished some time in the first few months of next year.

Booking of Rooms in Falmer House, the Physics Building and the Arts Building

STUDENTS WILL BOOK ALL ROOMS THROUGH THE SOCIETY SECRETARIAT (WENDEL HARRIS) WHO WILL CONSULT THE APPROPRIATE PERSON IN CHARGE OF BOOKINGS.

Anyone else wishing to book rooms in Falmer House, (including the Private Dining Rooms), the Physics Building, or the Arts Building should do so as follows:-

Falmer House

Senior Common Room Suite

Bookings to be made through the Secretary of the Senior Common Room Committee (Dr. Ross) who will inform the Head Porter of all such bookings.

Refectory and Balcony

Bookings to be made through the Catering Manager (Mr. Nicholson) who will inform the Head Porter of all such bookings.

Private Dining Rooms

Bookings to be made through Miss Philips (Registrar's Office) who will inform the Head Porter.

Junior Common Room Suite (including the Debating Chamber)

Rooms to be booked through the permanent secretary to the Union, (Mrs. Williams) who will inform the Head Porter.

Other Rooms can be booked directly through the Head Porter.

Physics Building

All bookings to be made direct to Professor Smith's secretary (Miss Ansell) who will inform the Head Porter of all such bookings.

Arts Building (with the exception of the largest Lecture Theatre which cannot be booked at present)

All bookings to be made direct to Miss Susan Furlong (room Arts 544) who will inform the Head Porter of all such bookings.

If the above instructions are followed, the Head Porter's diary will be the Master Diary for all events going on in the University, and in this way clashes of bookings can be avoided. Anyone wishing to arrange an event of some importance can consult the Head Porter's diary to find a suitable day.

Functions involving Catering

The person arranging the function should first book the appropriate room, and then consult the Catering Officer about catering arrangements.
University Administration

In the last two or three months a number of new appointments have been made to the senior administrative staff of the University, partly to put into effect the reorganisation of the administration described in an earlier issue of the Bulletin and partly to cope with the increasing amount of work associated with the expansion of the University. The following are some of the appointments that have been made:-

Mr. J. Mangold, M.A. (Cantab.), formerly Planning Officer, has been appointed to the new post of Bursar, and in this capacity will be responsible for the 'business' side of the University, i.e. for buildings and finance, leaving Mr. A. E. Shields, to be in charge of the 'academic' side of the administration. Mr. Shields will now be designated Registrar and Secretary of the University.

Mr. G. Lockwood, B.Sc. (Econ.) (London), formerly Assistant Registrar, has been promoted to the post of Deputy Registrar and will have primary responsibility under Mr. Shields for admission and registration of students.

Miss Mary M. Coppinger, B.Sc. (London), formerly Administrative Assistant, has been promoted to Assistant Registrar and will be in charge primarily of all work connected with examinations.

Mr. A. J. Caston, B.Sc. (Econ.) (London) has been appointed to the post of Assistant Registrar (Appointments) and as such will be responsible for the organisation of the work connected with careers for students, i.e. the work which would in most other Universities be done by the Appointments Board. An article by Mr. Caston appears elsewhere in this Bulletin.

Mr. J. G. Davies, M.A. (Oxon.), has been appointed as Assistant Registrar to assist the Registrar and Secretary on the secretariat side of his duties, i.e. in connection with establishment matters, publications, etc.

Mr. C. de N. Hill, C. M. G., O.B.E., B.A. (Oxon.), has been appointed as Deputy Bursar to assist the Bursar in administering the building programme of the University.

Mr. C. Brummitt, A.I.M.T.A., has been appointed as Assistant Finance Officer.

Mr. J. A. Thomas has been appointed as Maintenance Officer.

Mr. H. T. V. Church has been appointed as Executive Assistant with special responsibilities in connection with the portering and cleaning establishment of the University.

A number of additional Administrative Assistants have been appointed both on the Registrar's side and on the Bursar's side.

In place of Mr. J. M. Hobbs who resigned from the post of Catering Manager at the end of the summer term, Mr. R. Nicholson, M.H.C.I., who was until recently Deputy Catering Manager of Newcastle University, has been appointed to the post of Catering Manager.

A further appointment not directly connected with administration but of considerable importance for the welfare of the students and staff of the University is that of Director of the University Health Service, Dr. A. Ryle, M.D. (Oxon.), Dip. Obst., R.C.O.G., who was previously a member of the staff of the Caversham Centre in London, has been appointed to this post in a full-time capacity. He will continue to be assisted by the same part-time Medical Officers (Dr. Eames and Dr. Gough) as last year and Dr. Shadforth will continue as the University's Consultant Psychiatrist.

Chaplaincy Notes

There will be a supper meeting in Falmer House at 7.00 p.m. on October 11th, organised by the Chaplaincy and Christian Council. This meeting is intended to provide an occasion when first-year students can meet members of the societies represented on
the Christian Council. The University Chaplain and some of the Church Chaplains will speak and there will be discussion with a panel of faculty members, who will deal, among other matters, with issues raised by the Election.

A Service will be held in the Debating Chamber on October 18th, at 11.00 a.m. The Chaplain will be the Preacher. This Service is inter-denominational and open to all members of the University community and their friends. Until the Chapel is available, such services will be held three or four times a term throughout the year.

On October 25th at 5.00 p.m., Professor D. M. Mackinnon of the University of Cambridge will speak in the Debating Chamber on 'The Problem of Faith.' Professor Mackinnon is Norris-Hulse Professor of Divinity at Cambridge and was previously Professor of Moral Philosophy at Aberdeen. He is well-known both as a philosopher and as a theologian.

UNION

The main events in the first few weeks of term will be the presentation of last year's accounts and this year's budget, and elections for three places on the Union Committee. The Rag organised by the Federation of Brighton Students takes place at the end of October, and more details of this will be announced later.

Social Committee

The following dances will be held this term:-

<table>

2 gns. single

In aid of the Peredur Home School Appeal

3 gns. double

October 31st 8.30 p.m. - 12.30 a.m. 'Rag Hop' (informal)

There will be a Hop at the University every Sunday evening, 7.30 - 10.00 p.m., during the term. Details of Hops will be given each week on the Falmer House noticeboards.

If anyone is interested in helping to organise Dances and Hops this term, would they see the Social Secretary as soon as possible? There will be vacancies on the Social Committee this term and it is hoped that some First Years will fill them.

THE ARTS/SCIENCE SCHEME 1964-5

The Arts/Science scheme in the University is designed to serve a two-fold purpose. The first aspect involves bringing together arts and science undergraduates so that they may listen to lectures about, and discuss (in seminars) those areas of study and action where there appears to be prejudice, conflict, misunderstanding, lack of information, a need for new ideas, all arising from the very fact of them being students of different (even if, anthropologically, complementary) types of knowledge. As at present organised, a lecture course is offered in the summer term of the first year undergraduate course and a follow-up set of seminar discussions in the autumn term of the second year.
The second aspect of the scheme's purpose, growing out of the lectures and seminars, but also standing in its own right, is the provision of opportunities for arts and science undergraduates to further the study of any topic complementary to their specialism. The present arrangements require science undergraduates to write dissertations on non-scientific topics which interest them, in consultation with an Arts Faculty member. It is envisaged that arts undergraduates will be able to explore some scientific problems under the guidance of a Science Faculty member. Both of these activities will take place in the Spring and Summer terms of the second year of the undergraduates course.

The Arts/Science scheme is envisaged as encompassing also any relevant individual lectures or lecture courses, and seminars already offered by Faculty or visiting speakers. The whole lecture time-table would therefore be usefully inspected by both arts and science undergraduates to see if their own interests as well as those of the Arts/Science scheme, might be served by attendance at such lectures.

A special display of books, articles, lecture reprints relevant to the Arts/Science scheme is being mounted by Mr. Hunter (Manager) in the University Bookshop.

Arts/Science Scheme Programme, Autumn 1964

Seminars Second year undergraduates (arts and science) only. Seminar group discussions following up the lecture course:-

Tuesdays (starting October 6th)
10.10 - 11.15 a.m. 'Varieties of Enquiry'
(eight meetings; compulsory and counted as tutorials)

Lectures Visiting Lecturers: In conjunction with School of Social Studies

'Mathematics in Social Science'
Professor R. Stone

In conjunction with School of English Studies

'Literature and Sciences in the Seventeenth Century'
Professor D. Davie

Recommended for first year undergraduates and generally:

Mondays
AB 059
'Science and Philosophy'
Dr. P. Nidditch

Wednesdays
PB 237
'The Development of Scientific Thought'
Dr. S. C. Kapoor

Thursdays
AB 157
'Dreams, Sleep and Thought'
Mr. N. McKenzie
AB 172
'The Modern European Mind'
(see separate lecture list)

M.G.B.

THE LIBRARY

Into its new building during the long vacation the books and belongings of the Library have been brought from the scattered rooms which they had temporarily occupied. Delight at their assembly under one roof has more than compensated for the disappointments due to the failure of the builders and of the suppliers of furniture to complete and deliver everything according to plan. Delight at any rate is the feeling of the Library staff, and it is hoped that readers will suffer equally gladly a certain dislocation of services and an absence of some facilities during the next few weeks. Temporary expedients will perforce be operative during the first weeks of term. Most important, the position on the shelves of all subjects will be altered after Stage II of the building
becomes available about the end of October.

Finding one's way round a Library takes time and trouble. Returning members of the University made the discovery last year and now have to make it afresh. The main differences from previous arrangements have been summarized in a broadsheet called Notes for last year's readers which is available in the Library.

The author catalogue is now more comprehensive both in the number of books listed and in information about them. A subject catalogue is available to readers for the first time. The catalogues are still not as comprehensive as desired since the intake of books has been greater than capacity, especially amid the preoccupations of moving, to process them. It will still often be necessary to enquire about titles not in the catalogues. The presence in the building of all the staff and of all the books should make the answers to the enquiries quicker.

Books are now arranged on the shelves in full classified order. Main subject classes are indicated by letters. Numeric sub-divisions follow these specify particular aspects of the main classes. The first three letters of the author's name usually follow. The purpose of the classification is to bring together books on the same subject, which is helpful to the reader looking freely along the shelves. Some books defy helpful classification, but in the majority of cases the advantages of such an arrangement are indisputable.

The growing numbers of undergraduates will entail an increased clamour for those titles which many want to read during the same few days and which not all will purchase for themselves. One of the changed regulations, namely the addition of 24 hours to the time allowed for loans from the Delta collection, has been introduced because last year's rule compelling return by 11.30 a.m. on the day immediately after issue seemed to prevent adequate use of many titles. It may, indeed in theory should, result in a reduced turn-over of titles. To offset this, copies of some titles will be confined to the Library on the assumption that many people will be able to consult them in a limited period. Readers will know best whether these new arrangements work satisfactorily. Tutors are particularly asked to give as much help as they can to ensure that books in Delta or confined are those which many students are expected to read.

When the arrangement in the new building is complete, the Library's books will be seen together for the first time. The possessions will be clear, but so will the gaps. One hundred thousand books is very few in a University where increasing numbers learn and research in an increasing number of subjects. Readers should not hesitate to suggest absent titles.

The Library's Photographer will be taking up his appointment at the beginning of October. Not only will he be able to provide Xerox copies of books and documents, but he will also give a full photographic service. Members of the University having photographic work to be done are invited to consult him.

A brief note in explanation of three new regulations is called for. A corollary of freedom of access to books within the Library is that all books and papers will be checked at the exits from it. Similarly bags and cases will not be allowed beyond the wickets at the Library entrance, but lockers for them will be provided in the cloakrooms as soon as possible. Third, members of the University are not allowed to wear stiletto heels, whether protected with plastic plugs or not. The carpet chosen for the floors to keep the noise of traffic down will not resist them.

The prime consideration in planning and equipping the new building has been the comfort and convenience of readers. Suggestions which they may have for the improvement of services will always be welcomed.

D.C.
THE BOOKSHOP

The bookshop is in the process of expansion. Its floor space has been extended by half through the incorporation of further arches in the Falmer House cloisters, and the stock of books has been expanded. When completed, the additional space and fittings will make the Shop an even more interesting and attractive spot in which to spend odd moments.

We would like to remind all students that credit is available to them (on a term to term basis) as soon as they have registered, and we invite Freshers, in particular, to put exploration of the bookshop high on their list of priorities. The Manager and staff are always ready to help with advice and information, and are always willing to receive suggestions about the Shop.

H.H.

THE ISLE OF THORNS

As will be known to those who attended courses there in the vacation, the Isle of Thorns hostel is now open. The property consists of a newly-built hall of residence (the White House) with single study-bedrooms for forty persons, six tutors' rooms, and dining space for eighty. The White House is situated in the open common land of Ashdown Forest, and opportunities for recreation are extensive.

The White House may now be booked by Tutors and University Societies for weekend conferences or reading parties. The charge for full board is £6 per week, or £1 per day, but those who are already paying through the University for accommodation in Guest Houses, or in the Park Houses, will receive an appropriate reduction in respect of accommodation, although, of course, in respect of meals. A condition of the use of the White House by University Societies is that a member of Faculty must be resident for the duration of the booking. Pending the appointment of a Warden, individual bookings from undergraduates cannot be accepted.

Secretaries of Societies, Tutors and others who would like further information about the possibility of running events at the Isle of Thorns are invited to contact Professor T. H. Elkins for further information. Firm bookings, which are subject to approval by the Isle of Thorns Committee, should be placed with Miss Philips, of the Registrar’s staff, Stanmer.

THE UNIVERSITY APPOINTMENTS ADVISORY SERVICE*

This year the University is setting up an Appointments Advisory Service. This is a Service for all students who at any time are concerned about their employment and career prospects when they finish their academic work. Some students, of course, may well have firm ideas about their future plans and others may have equally firm ideas about the need to make their own decisions, uninfluenced by tutors or other advisers of any kind. The Service will only be in touch with these people twice during their University career: once early on in their first year, for research purposes, to see what career plans they have at that stage and then just before leaving to find out what they finally choose to do, not only for research purposes but also so that the University Grants Committee Statistics on the First Employment of University Graduates may be compiled. The University feels,

* In the Prospectus, the Appointments Advisory Service appears as the Careers Information Service, but the former is now the official title.
however, that the majority of students will want to take advantage of the efforts it has made in setting up the Service which can do as much or as little as each student wishes within the following main areas of interest:-

The collection and interpretation of information - on the face of it nearly all students have a wide range of potential fields of employment and there is a bewildering amount of information available on most of them. Short of becoming experts on Occupational Information as Professor Hoback of New York University has done, most people have to be content with a fairly broad survey of possible employment before investigating two or three of these fields in more depth. The danger here is that the less a person knows about a particular occupation the greater is the likelihood that he will make simplifying assumptions and have stereotyped images of 'industrial research', 'the civil service', 'advertising' and so on which are either over-glamorous or the reverse. The role of the Advisory Service here is to see that this is guarded against both by providing adequate information and by helping the students to interpret it realistically. When the student knows about a fuller range of possibilities open to him and is looking at one or two fields in depth, the Advisory Service can often help by introducing him to someone actually working in the field of the student's interest. In some cases naturally such a person may not be completely disinterested but in many cases such people are surprisingly willing to give a frank and contemporary assessment of their work and its prospects.

In some cases, however, the most difficult task of a person thinking about his career is making a realistic assessment of his own personal values, temperament and chances of success and matching these to different types of work. It would be quite misleading to suppose that any Advisory Service can help too much in this very difficult area since decisions about careers are very often linked with other decisions of a more fundamental kind and the formation of a personal philosophy. Nevertheless it is usually able to help the individual to assemble some of the necessary evidence in a relatively coherent way. People working in the Advisory Service keep closely in touch with most fields of employment and in general come to Universities after having had experience of work of a fairly broad character, such as personnel, and from this they have usually learnt to evaluate the nature of many kinds of work, and can sometimes see where a person would be likely to fit in well and, more frequently, where an individual would be not so likely to succeed. Moreover, during the three or more years of the student's life there ought to be both a growth of self-awareness on the part of the student and a more or less accurate understanding of him by his personal tutors. All these factors when considered together may well help someone to move with more confidence towards one kind of work rather than another and this, as a number of people discover each year, is no small achievement.

One mundane but important part of the work of the Advisory Service could well be labelled 'Fulfilling Entrance Requirements'. The recruitment and selection plans of many employers and specialised post-graduate courses are, as a rough rule, at least as complicated as University Entrance. Students who don't appreciate that the B.B.C. and the Diplomatic Service have quite definite and early closing dates for their competitions usually find themselves either waiting a year or (rather reluctantly) taking a less desirable job. In the same way late applications for a post-graduate Certificate in Education may to some extent restrict the choice of University for the student. The Advisory Service knows about these difficulties of timing and as far as possible can take a good deal of the chance and drudgery out of applications.

Because of the 'Entrance Requirements' the Advisory Service would prefer to see final year students, both undergraduates and graduates, in their last Autumn Term or at the latest during the Christmas vacation and the early part of the Spring Term. Other students can then be seen during the Spring and Summer, but all the arrangements are fairly flexible and people may come whenever they wish either for a specific piece of information or for a longer discussion.

A number of general talks of apparent interest are being arranged so that students can question representatives of the B.B.C., Voluntary Service Overseas and other organisations well before they have to commit themselves to an application. In the Spring
Term a number of mainly industrial and commercial employers will visit the University to see individual students who by that time may feel that they wish to work for them, while in the summer and through the vacation the Service will be in touch with many smaller employers of graduates.

Although these talks, visits and liaisons with employers are useful, they are not quite central to the "raison d'être" of the Service. Many of us have been, rightly, bored by irrelevant talks on 'careers' at times when we were not ready to make a decision about the future or were just too sanguine about the prospect of post-graduate work or the apparent length of time before finals, while others have been almost badgered into anxiety about their future by well meaning friends and relations and of course the weight of press advertising. The advisory Service exists to suggest to the first group that the long, hot summer will not last for ever and a little thought about the future might not be a bad thing and to the second group that with the unemployment rate for graduates at below 2% and no real necessity to feel that one's first job is for life, the whole business of reviewing one's post-university career can be taken too seriously. In either case an individual compromise may have to be made between what is hoped for and what is possible and in this process the Advisory Service may be of help.

A. J. C.

LEWES MUSIC CIRCLE

Dr. Gordon Jacob is to give a series of six fortnightly lectures to the Circle, starting on Tuesday 6th October at 7.45 p.m. His subject will be 'The Composer and his Materials'. Anyone interested should contact the Secretary (Miss Eva Davies), Chantry Cottage, Southover, Lewes.

VISITORS

Visitors to the University during the Summer Vacation have included:-

Dr. W. H. Allaway, Director of the Education Abroad Program, University of California, Santa Barbara.

Professor H. M. Good, Queen's University, Canada.

Mr. A. P. Gordon, Registrar of the University of Waterloo, Ontario.

Mr. W. A. Jayawardana, Registrar of the University of Ceylon.

Professor A. A. Kwapong, Pro-Vice-Chancellor, University of Ghana.

Four University Presidents from Japan.

Mrs. S. Hansa Mehta, wife of the Indian High Commissioner.

H. E. Mom Luang Pin Malakul, Minister of Education, Thailand.

Dr. Conor Cruise O’Brien, Vice-Chancellor of the University of Ghana.

Dr. the Hon. S. Ramgoolan, Chief Minister and Minister of Finance, Mauritius.

Mr. Somade, Chairman of the Provisional Council of the Ife University, Ibadan.

Sir Arthur Stevenson.

Groups of visitors to the University have included:

Brixton School of Building.
Members of the Chartered Insurance Institute.
Charters Towers School.
Members of the East Sussex County Council, the West Sussex County Council, and the
and the Borough Councils of Eastbourne and Hastings.
Davis's School of English.
The Knoll School for Boys.
Sixth Form Latymer Upper School.
University of London Institute of Education.
Sussex Mayors' Association.
Institute of Physics and Physical Society (London and Home Counties Branch)
Valuers' Institution.
W. E. A. (Southern District)

Conferences that have been held at the University have included:

Architectural Association Seminar on University Planning.
Association of Assistant Librarians (Sussex Branch)
Institute of Physics and Physical Society.
Parliamentary Group for World Government.

Future visitors will include:

Professor A. Renauld, Director of the Institute of Educational Research in Brazil.
Dr. D. R. Llewellyn, Vice-Chancellor-designate of the new University of Waikato, New Zealand.
President Heald and Mr. Shepherd Stone of the Ford Foundation.
Shri K. V. K. Sundaram, Commissioner of India.
