MEMORIAL SERVICE

A memorial service for Martin Wight, Professor of Economics, was held at the Meeting House Chapel on Monday October 9.

The Chaplain, the Reverend D. F. Forrester, said in a prayer:

"With gratitude we remember his integrity as a scholar and a teacher, his unyielding concern for the welfare of his students, his imaginative leadership in this university and in the other institutions in which he laboured, his steadfast affirmation of moral principles, and his simple and winsome faith in God."

The lessons were read by the Reverend W. L. Godden, Archdeacon of Lewes, and Professor T. H. Binnie, Dean of the School of European Studies. The Reverend P. H. Boggs, headmaster of Portsmouth Royal School, Epsom, spoke on Professor Wight's work for the development of the university. He said Martin Wight pioneered work on European studies. He did so much to encourage the study of international relations at Sussex and had been recently working on a book on power politics. Professor Wight was irreplaceable in Sussex, the Reverend Wight said.

The Bishop of Chichester, the Right Reverend Roger Wilson, gave the blessing.

Chief Coach's visit

Roger Mills, chief coach of the Belmont Association of England, visited the University on Wednesday. He worked on tactics with the 1st team and will have another coaching session with the squad on October 12.

This year, for the first time, students are eligible to play for the county in which their university or college is situated. An University player could be selected for the Sussex county team.

CAREERS TALKS GET UNDER WAY

What do students have to know about careers? A series of talks which began on Tuesday and which will run all term can go a long way to provide the answer.

Mr. Ian Kerr, Appointments Officer, said: "The discussions are designed to get information about careers to students as early in the final year as possible."

"We do it on a grander scale at Sussex University than most other universities."

People from groups of occupations give early-evening talks to students. Details of the meetings in the next fortnight are in the Diary on page 11. The talks can attract up to 50.

Mr. Kerr emphasized that the Appointments Service will this term provide general career information.

"We provide the information but I find it difficult to say how much people take away from it," he said.

The search for jobs for students who will graduate at the end of season begins in earnest next term.

The University Information Officer, Angus McIntyre, began work on October 2.

He would like to hear from members of the university who have stories for publication by the Information Office. He is in room 201 at Sussex House, phone no. 05-115.

He will help with inquiries from press, radio and television.

Phillips Deaf Unit opened

The Reginald M. Phillips Research Unit for the Deaf was opened on Tuesday October 3 by the founder of the unit, Mr. Reginald M. Phillips.

A marble plaque, with a bronze bas-relief bust of the founder, on the wall in the west door of EDB, was unveiled by Mr. Phillips. The plaque was commissioned by the university from Mr. Michael Ricketts, ARCS, The Vice-Chancellor, Professor A. S. Briggs, chairman, Mr. Phillips, on behalf of the university, the £132,000 he gave towards the establishment of the unit in 1968 had been the first of his magnificent gifts to the university. Professor Briggs stressed the need for research into the psychological, social and educational aspects of deafness. He said that Sir George Colber, Chief Medical Officer at the Department of Health had said a few days earlier that "inadequate provision for the deaf is the most striking shortcoming of the National Health Service" and that "neither medically nor through the administration have we given as much support as we should have done to the non-medical scientists who might have helped to produce progress."

The Vice-Chancellor said that Mr. Phillips had ensured that non-medical scientists could carry out work in Sussex which would be of value to the whole community. About 50 people attended the ceremony. Guests included principals of schools for the deaf in Brighton, Eustor, Rollins and Cheadle, and the Vice-Chairman of the Commonsweath Society for the Deaf, Sr. John Stow and his wife, Lady Stow.

Residences man named

Geoffrey Chaffey, 41, has been appointed Residential Services Officer. He hopes to begin work by the end of this month.

Mr. Chaffey is a housing estate manager in Southern France. He is married with one child. He has previously worked for a housing corporation in Ontario. He was formerly project manager for the Birla Hospital Trust in India.

Mr. Chaffey is a five-handicap golfer and plays bridge. He has taken part in the single-knotted trans-Atlantic yacht race.

TWELFTH NIGHT

A version of "Twelfth Night" by Gordon McDougall runs at the Arts Centre to October 21. It has delighted critics and audiences. "The Schage" reviewer says Shakespeare would have approved. The 1st devo set and the "twenties decor are witty and elegant," and the cast carry off the twenties style to a charming and witty conclusion. Brian Pringle's Malvolio is highly praised by the Sunday Telegraph, and the Evening Argus like Peter Baldock's Sir Toby and Michael Burrell's Sir Andrew.
'72 INTAKE THE FACTS

The Admissions Committee, which met on Wednesday, October 4, consists of the Chairmen of Counseling Committee and four members appointed by the schools. Admissions are being handled on a School basis rather than a subject basis and School Selectors, appointed for the purpose, would be responsible for the selection of candidates in each School.

The Committee noted that at 33 June meeting, the Planning Committee had considered a paper by the Admissions Officer on home-based students. Planning Committee agreed with the Admissions Committee's proposal that schools in the local catchment area should be identified and that the University does not wish to discourage home-based students. The University's policy on home-based students from a wide geographical area would be continued.

The meeting discussed the figure for this year's intake of students. Arts and Social Studies the intake of 315 students was very close to the target agreed by the Planning Committee. Within the arts, some subjects, such as English, with 315, were above targets. Others such as Economics and Business Studies had 84 and 98. There were only 9 Economics students, eight below the figure. The numbers of students admitted in German, Italian and Russian were very low. The quality of applicants had been poor and the demand for places in these subjects had been small.

UNDERGRADUATE INTAKE 1972

Total: 915

- Arts & Social Studies: 371
  - African & Asian Studies: 54
  - Cultural & Community Studies: 102
  - English & European Studies: 122
  - Social Sciences: 141
  - Applied Sciences: 99
  - Biological Sciences: 141
  - Mathematical & Physical Sciences: 129
  - Modern Languages: 76
  - Total: 371

- Other Subjects: 544
  - Engineering: 54
  - Home Science: 54
  - Industrial & Commercial Studies: 54
  - Total: 544

Total: 915

The Admissions Officer, Mr. E. H. Cox, pointed out that numbers in the School of Cultural and Social Studies had jumped from 90 to about 100 this year since the School had changed its name from Educational Studies three years ago. A large proportion of the students in the School were female.

Science numbers

The Science intake was 490. Planning Committee had hoped for between 510 and 550 students. The Admissions Officer told the Committee that the actual intake had been mainly due to an improvement on the numbers who had accepted offers by June. UCCA's mapping-up of unplaced applicants in August had brought in 24 and 25 of the final 22 students. Science figures included 21 exchange and visiting students whose numbers were not anticipated in the first year of the shortage in the numbers of science students. The Science intake in the School of Applied Sciences, which was below the expected figure. Applied Science applicants had had very bad results this year. In Biology, the number of students accepted had been exceeded by the actual intake of 14 of the 14 new students. Mr. Cox said that this was a very satisfactory figure but that Biology could not repeat this intake every year. The University could not rely on Biology to make up the science numbers.

The number and quality of Physics applicants had been low in the country as a whole this year, and this was reflected in the School of Mathematical and Physical Sciences intake. Mathematics students were close to the target figure. The numbers in Modern Languages, 76, were low. As in Physics, the small number of students applying was part of a national phenomenon, which appeared to be deteriorating. The same was true of the Sciences Professor D. W. Shin, said that there was a high proportion of mature students aged over 23 in the social sciences. About thirty per cent of the intake into the Schools of African and Asian Studies and Social Sciences was mature or overseas.

Selection procedures in the Science Area were discussed. The Committee heard about selection methods for Mathematics and Physics in recruiting applicants this year. Interviewers in Biology had been appointed. The Committee was to be groups together with a current Sussex Biology undergraduate. They talked to them in their homes and showed them around the countryside before seeing each candidate individually. Interviewers in Biology were not selective and the candidates knew that this was so.

Mr. Cox said that the Admissions Office had been asked by UCCA to give the results of the numbers of Ugandan Asians who could be accepted in the current academic year. The University had informed UCCA that 60 places would be available immediately in B.Sc. courses. The University, however, could not give absolute accommodation. This would have to be arranged by the Reexamination Board.

Praise

The Committee noted that the University's prospectus, the "Guide for Applicants", had been praised in a report on university prospectuses published in "Where", the Students' Union magazine of the University. The report said that the Sussex prospectus was one of those which were an appropriate combination of friendliness and fact. Sussex was singled out as providing for by far the most frank and open explanation of admissions procedures and was judged to have the most informative of the university prospectuses.

The Committee praised the "Guide for Applicants" and the "Guide for Students" which had been approved as suggested subjects for entrance purposes. Committee members thought that the value of these subjects would depend very much on the individual teacher in charge of them, but agreed that these two subjects could be approved. Mr. Cox said that a third subject, "Home Economics", was still being investigated but was unlikely to be approved.

VISITORS TO THE UNIVERSITY

Monday, 13 and Tuesday 17 October - Mr. J. Rodriguez, Vice-rector of the National University of Colombia will be visiting the University. He will be meeting Mr. E. H. Cox, Mr. H. C. Jones, Mr. G. Lockwood, Mr. A. E. Sheldrake, Mr. N. Macfie and Mr. A. Morris.

Monday, 23 October - Mrs. Mayhead, Assistant to the Education Links Officer, Officer of the High Commissioner for Australia, will be meeting Miss A. A. Milne, Mr. A. N. Williams, Mr. H. J. Myers and Mr. M. N. Zia.

Monday, 30 October - Miss Maria Zborowska, a Translator and Editor from Poland, will be visiting Mr. G. D. Salgado.

Wednesday, 25 October - Mr. O. T. Ayvan, Librarian, Bogazici University, Istanbul, and Mr. B. Asma, Librarian and Head of Department of the Library of Science, Rand Afrikaans University, South Africa, will be coming to the University to meet Mr. P. P. Lewis.

Friday, 27 October - Dr. I. B. Mabili, an official in the Ministry of Culture, Republic of the Federal Republic of South Africa, and Mr. J. O. M. L. Marra, Deputy Head of the Technical Universities and Colleges section of the Ministry of Culture, Hungary, will be seeing Mr. N. M. Marković and Mr. B. Celajovski.

Friday, 28 October - Professor Sadiq revolving, Professor of English Literature, State University of Milan, will be visiting the University and for his programme for the visit has not yet been finalised. Mr. G. P. Keay, a teacher from South Africa is hoping to visit the University on Monday, 23 or Tuesday, 24 October.

GRADUATION GRANT TALKS PLAN

The following paper, outlining the timetable for the discussions of the Graduation Grant Plan, was presented at the Planning Committee meeting.

1973-74: An enabling grant to make the first 1973-74 academic cycle has been made shorter and less predictable by the delay in the announcement of the quinquennial settlement for the universities, and the related announcement on the 1975-7 capital allocation. At the time of the drafting of this paper, the main assumptions were:

Timings: that the Government will announce the main capital allocations to the GUC this later this month and that it will take the GUC, until early December, to announce allocations to universities.

That, the student number targets and the recurrent resources allocated to the University will not be very different from those upon which the Quinquennial Allocation was based.

The following tentative timetable is suggested -

1. A special meeting of the Planning Committee to be held (all-day) as soon as possible after receipt of the announcement.

At that point it should be possible to divide the discussions into:

(a) 1973-74 Logistics and Budgets,
(b) 1973-74 University plan.

The sequence of discussions on the 1973-74 logistics and budgets could be:

Planning Committee recommendations to be considered by the main spending units (e.g. the Area committees) in the period January 5-30 for report to the Planning Committee, or to be discussed and confirmed by the Planning Committee (July 14).

Final 1973-4 budgets and logistics would be reported by the Area to the Planning Committee on 13 June.

The sequence of the discussion of the University Plan could be:

A meeting of the Planning Committee would be required (possibly over-all day) about 2-3 weeks after the first.

Papers to be exchanged by the second week of the Spring Term (22-23 January).

The following tentative outline University Plan should be circulated widely with the quinquennial submission available on request.

The University will normally have been convened around 2-6 February.

No vacancies - for some

First-year students have all been placed in accommodation on campus or in Brighton guest houses and private lodgings. There are 490 first-year students in the Park Houses and the Park Village and 358 are in guest houses. The remaining 50 students and some mature and married students are in flats and houses.

About 95 per cent of the first-year students have expressed a preference for campus accommodation. Some of the first-year students in Brighton have already put their names on the waiting list for campus accommodation.

The allocation of residence on campus has been changed to allow all students to choose between the Park Houses and the Village. Most of the first years opted for the Park Houses, while second and third year students and graduate students tended to prefer the Village. Graduate students, who often require accommodation throughout the year, prefer the Park Village because the Park Houses are used for conferences during the vacations and the rooms cannot be let on annual licence.

Mr. Wilson thinks that making the students in the different types of campus accommodation will improve the social atmosphere. The University is working to integrate first years into the life of the University.

Estate agents

There are still second year students looking for flats and houses in Brighton. Some of them had arranged accommodation through their college and others were exploring estate agents by the vacation and were told on return that their accommodation was no longer available. Resident Estate Agents who have been asked the Accommodation Officer, Miss Norma Wilson, to make a prospectus of students who have moved into the Accommodation Office who still need somewhere to live, Miss Wilson reports that about thirty students have made enquirers during the vacation and about half of them have now found rooms.

Another group of estate agents are putting students who have been let down by estate agents in touch with their solicitors. Mr. H. C. P. Coates, the Student Community Action Co-ordinator is working at putting five homeless students with temporary accommodation.
Biomedical group - it's official

Week-end talks for new faculty

As an induction programme for new academic family members, we would like to introduce the following:

The centre, which is being held in the main room of the Meeting House, includes a variety of talks and sessions ranging from basic biological principles to an overview of the University, to the selection and admission of students. The programme's sessions on Saturday will take place at the time of the Meeting House, and after 3 p.m., we will include a talk by Professor Deputy Vice-Chancellor, Professor R.J. Blewitt, who will discuss the importance of the Vice-Chancellor's Group on Undergraduate Teaching, the Teaching Co-ordinators and other ways of encouraging and encouraging students to participate in their teaching.

On Saturday evening, the Vice-Chancellor, Professor Ans Briggs will welcome new faculty to the University. Sunday's sessions will include a seminar teaching at Sussex, given by Dr. P. Amos. Early in the Spring Term a meeting will be held with the new faculty to give them an opportunity to raise any questions or problems in the light of their first term's experience.

Readers on any aspect of the induction programme should be addressed to Mr. Raywell Jones, Room 501, Sussex House, telephone 1467.

They start this month

The following members of Faculty are taking up their appointments during the month of October.

- N.S. Love, B.Sc., Ph.D., - Research Fellow (Physics)
- M. Flette - Lecturer in French
- Professor C. M. Wilcox, B.Sc., M.E. (Eng.), Ph.D., - Professor in International Relations
- Professor M.J. Nee, B.A., Ph.D., - Associate Professor in Astronomy
- R.E. Snellench, B.S., M.A., Ph.D., - Reader in Politics
- Professor B.C. L. Lemon, D.L., - Reader in Economics
- J.R. Collar, B.A., - Temporary Lecturer in French
- S.A. MacLean, B.A., - Temporary Lecturer in Economics
- A.F. Gill, B.A. - Lecturer in Social Anthropology
- Miss A.E. Boyd, B.A. - Lecturer in Music
- M.J. Pullum, B.C.L., M.L., - Administrative Assistant
- J.G. Turner, M.A., - Temporary Lecturer in German
- A.L. Saunders, B.A., - Temporary Lecturer in English
- G.B. Senia, D.I.P.-Psych. - Temporary Lecturer in Religious Studies
- R.S. Pearce, M.I., - Lecturer in Plant Physiology
- Mle. M.M.J. Dechamps, L.L.S.L. - Lecturer in Philosophy
- A.S. Collar, B.A., M.I., - Temporary Lecturer in Philosophy
- D.S. Konzak, B.A., - Temporary Lecturer in Philosophy
- M.G. Roberts, B.S., - Temporary Lecturer in Psychology
- J. Ornstein, B.S., - Tutorial Fellow in Mathematics
- R. Macaulay, D.I.T., - Tutorial Fellow in Mathematics
- R.E. Erelshield, B.A., Ph.D., - Temporary Lecturer in Philosophy

READ FASTER AND BETTER

A course in advanced thinking, reading and learning designed to help people to study more effectively, will be held this term under the auspices of the School of Advanced Studies. The course, which can be run by Mr. Tony Banaz, Principal of the College of Advanced Learning, has been held on several occasions over the last four years. The results have been so impressive that Dr. David Peacock, Dean of the School of African and Asian Studies, is recommending his graduate students to take the course.

The course is an imaginative but basically commonsense approach to study designed to re-educate people in learning methods. Students are shown how to read with a text so as to get the most out of it in the minimum of time. They learn how to increase reading speed and comprehension and how to take notes with maximum economy, Tony Banaz, who designed the course, believes that conventional education as we know it does not really teach us how to learn. On the contrary, he maintains that by the time a student arrives at university, he is burdened with bad learning habits, with a rigid approach to absorbing information and a narrow, linear system of thought. Hence, without the authority of the written text. The course is concerned with clearing away some of these bad habits and helping the student to discover and make the most of his natural learning abilities.

Enthusiastic

The course is not magic and it involves a lot of hard work, but students at Sussex who have taken it have been very enthusiastic. Testes carried out at the University show that their reading speeds increase from two and a half to eight times the original speed. Students can run successfully over entire books in six weeks, starting on Wednesday November 1 and Thursday November 2. They will be taught by Mr. Peacock and Dr. William Chin of the Director of the Media Service Unit, and will use videotapes made by the Kodak Research Laboratories for the course.

The course of six three-hour sessions will cost £5 per student. People who want to take part should apply as soon as possible, as the course will be limited to 60 places. Mrs. Cecil Pindell in E.8.6. is handling registration.
DIARY OF EVENTS

Week commencing Monday October 16

Monday, 16 October
Nuclear and Particle Physics Seminar; Professor F. Lezn (Zurich), "Model Independent Determination of Charge Distributions from Electron Scattering", 2.15 p.m. in Physics, PH1/6.
Lecture by Professor Frederic Groover (University of British Columbia), "Marcel Proust et la Nouvelle Revue Francaise", 5.35 p.m. in Arts A1.1.
"The Bible" - a series of Open Lectures - Stephen Medoff, "On All True Tastes Excluding: Or, Can you read the Bible as a Book?", 4.45 p.m. in Arts A1.1.

Tuesday, 17 October
French Seminar; Professor Frederic Groover, (British Columbia), "Drieu, Paulhan and the Nouvelle Revue Francaise during the Occupation", 11.30 a.m. in Arts A1/06.
Radical Faculty Group Meeting - All Faculty welcome, 11.30 a.m. in Room 112, Falmer.

Wednesday, 18 October
Institute for the Study of International Organisation - Seminar: Professor Leon Gordenker (Princeton University), "The Development of the U.N. Secretary-General", 2.30 p.m. in Stammer House. (NH: transport to Stammer House is available at 2.15 p.m. from outside the refectory).

Thursday, 19 October
S.I.O. Seminar; Sandy Johnstone (SIO Visiting Fellow; International Planned Parenthood Federation), "New Developments in International Collaboration on Population Questions", 2.30 p.m. in Stammer House (for details of transport to Stammer House see above), General Physics Colloquium: Dr. G. Martelli (Bologna), "Inorganic Studies using Artificial Clouds", 11.30 a.m. in PH1/7.

Friday, 20 October
Astronomy Centre (Sussex) and R.G.O. Joint Seminar; Dr. T. Arnold (Massachusetts and Sussex) "Collisions of Proto-Stars in a Collapsing Structure", 4.15 p.m. in Physics PH1/7.
Lunchtime Concert in the Meeting House, 1.15 p.m.

Sunday, 21 October
Sunday Morning Service: Preacher - Dr. Philip Giauque (Former Director, Institute of Race Relations), 11.30 a.m. Meeting House.

Week commencing Monday October 23

Monday, 23 October
The "Bible" - a series of Open Lectures - Julius Carlebach, "Law and Community", 4.45 p.m. in Arts A1.

Nuclear and Particle Physics Seminar: Dr. R. Osborne (Cambridge), "Fixed Mass Sum Rules in a Parton Model", 5.00 p.m. in Physics, PH3/1.
Religious Studies Circle: Professor Gordon Rapp, "Trends in Reformation Studies: questions they raise about the nature of History", 4.15 p.m. in the Lower Room of the Meeting House.

Tuesday, 24 October
Low Temperature and Solid State Physics Seminar: Dr. T. E. Faber (Cambridge) "Liquids and Crystals", 2.45 p.m. in Physics PH1 4A2.
Matter Science Colloquium: Professor B.W. Cahn (Cambridge), "Metastable Alloys - the Present State of Play", 4.15 p.m. in Arts.
Centre for Contemporary European Studies - Research Seminar: Mr. Carl Einar-Bravestad (Visiting Fellow, CCES), "Sweden, the Nordic countries and the European Community", 4.45 p.m. in Arts A1/06.
Career Discussions organised by the Appointments Advisory Service, "Social Work Careers", 5.30 p.m. in Arts A1.09.

Wednesday, 25 October
Institute for the Study of International Organisation - Seminar: Robert Rhodes James (SIO Visiting Fellow, 1983), 11.30 a.m. The role of the U.K. Human Rights Sub-Commission on the Prevention of Discrimination and Protection of Minorities", 2.30 p.m. in Stammer House. (NH: transport to Stammer House will be available at 2.15 p.m. from outside the refectory).

Thursday, 26 October
SIO Seminar: Sir Bernard Bowen and Christopher Irvine (SIO Fellows, 1971-72), "West European Foreign Policy & Defence", 2.20 p.m. in Stammer House. (For transport details see above).
Theoretical Physics Seminar: T.W. Kibble (£mpirical College), "The Problem of Energy Resources, Will They Run Out?", 4.15 p.m. in Physics, PH1/6.
Career Discussions organised by the Appointments Advisory Service: (i) "Postgraduate Work in Science", 5.30 p.m. in Physics, PH1/6.
(ii) "Postgraduate Work in Arts & Social Studies", 5.30 p.m. in Arts A1.06.

Friday, 27 October
Astronomy Centre (Sussex) and R.G.O. Joint Seminar: Dr. R.E. Williams (Steward Observatory and University College, London), "Radio Line Formation in Quasars", 4.15 p.m. in The Chapel. (NH: the coffee for the BGG will be from outside Falmer House at 4.45 p.m.)
Lunchtime Concert in the Meeting House: John Birch, (University Organist) Organ Recital, 1.15 p.m.

Sunday, 28 October
Sunday Morning Service: Preacher - The Reverend Austin Smith. (Anglican Diocese, Denzignes, 11.30 a.m. in the Meeting House.

SUDBURY UNIVERSITY WOMEN'S GROUP

Wednesday, 18 October, at 8.00 p.m. in the Meeting House, Mr. Anthony Jemmer will talk to the University Women's Group on the history and work of the Little theatre, Leuze. All women connected with the University, and their friends, will be most welcome.

CENTRE FOR CONTINUING EDUCATION - Evening classes:

THURSDAY EVENINGS - 7.30 p.m. "Comedy in France" Tutor: P. France, M.A., D. Phil. (held in Arts A1/06).

Edited by Marilyn Nash

NOTICES AND ANNOUNCEMENTS

The MASS X-RAY cell will be in the Butler House Car Par on the following days:
Wednesday, 18 October 9.00-12.30, 2.00-4.30.
Thursday, 19 October 1.30-9.00.
Friday, 20 October 9.00-12.30, 2.30-4.30.

ARTS CENTRE

Until 21 October - TWELFLE NIGHT - by William Shakespeare. Mon. - Thurs. 7.30 p.m.; Fri., Sat. 11.30 a.m. and 7.30 p.m. Tickets: 25p, 50p, 75p, students and senior citizens.
(NB Special Schools matinee: 19 Oct. at 1.30 p.m.; 18 & 20 Oct. - TWELFLE NIGHT with - Ann Firbank and Peter Baldwin - a lunchtime event, starting at 1.15 p.m. Tickets: 29p.

20 October - Pro Opera presents: LE DAMNATION DE FAUST (in French) by Berlioz, with Sarah Walker, Richard Gaedy, David Thomas and John Tomlinson, with the Pro Opera Orchestra; Leader: John Bacon; Conductors: Leslie Bird and the Brighon Consort (Musical Director: Daphne Eliott)
Tickets: 5p, 10p, 25p - students & senior citizens.

Exhibitions

Until 21 October - Annual selection of selected works from the Bishop Otter College; one of the finest collections of modern paintings in the South.

20 October - Art Centre presents - and other works leading to the Gardiner Centre's Art Loan Scheme, which may be hired for a small fee for any period of time up to a year.

SPORT AND RECREATION

SPORTSCENTRE:
Wednesday, 18 October - Basketball - University v. Boys Club, 8.00 p.m.
Sunday, 22 October - Basketball - University v. The Bishop Otter College, 2.30 p.m.

Wednesday, 25 October - Basketball - University v. Mongreles Chessmen, 8.00 p.m.

SPORTS PAYLAK - FALMER

Wednesday, 19 October - MEN'S HOOP: University 1st XI v. R. A. Staff, 3.30 p.m.
University 2nd XI v. Revery, 2.30 p.m.

WOMEN'S HOOP

University 1st XI v. Bright, 2.30 p.m.
Saturday, 21 October - RUGBY: University 1st XI v. Revy, 2.30 p.m.
University 1st XI v. R. A. Staff, 3.30 p.m.

Wednesday, 25 October - RUGBY SPECIAL: Sussex County v. Eastern Counties, 2.30 p.m.
Saturday, 28 October - RUGBY: University 1st XI v. Horsham, 2.30 p.m.
University 2nd XI v. Revery, 3.30 p.m.

MEN'S HOOP

University 1st XI v. Littlehampton, 2.30 p.m.

CUT ANGLES SOCIETY

The Angling Club careers for all types of angling and would welcome your membership. If you are interested and would be interested in angiing for only 25p, please contact Norman Baldwin, E.D.B., Room 309, Telephone 01223 4142.
The following sea-fishing trips have been arranged:

-sundays 26 November and 11 December
Anytime wishing to go on these trips please contact: Ernest Gray, Med. Sci, Postgraduate P.H. or telephone 06-112-361, (When making application you may please state whether or not you have transport or supply a lift?)

STUDENT ACTIVITIES
Mon. 16 Oct. - Science Fiction Society Film: "Invasion of the Body Snatchers", 7.00 p.m., in Arts A2.
Tue. 17 October - "The Science of Intelligent" - An introductory Lecture to Transcendental Meditation and the Principles behind the Practice, 1.00 p.m. in the T.Y., Room, Falmer House.
Thur. 19 October - Labour Club Speaker Meeting - "The Workers Struggle for a Socialist Britain", by a member of the Spanish Young Socialists, 6.00 p.m. J.C.R., Monday 23 October - Students Union Elections, 12.30 p.m.
Old Refectory, Fri. 20 October - Labour Club Executive Committee - open to all members - 12.00 p.m. in the T.Y. Room, Falmer.
Labour Club Marxist Discussion Group - "The Self Determination of Nations" - open to all students - 15.30 p.m. in the T.Y. Room, Falmer House.
Saturday 28 October - Surfing Club Film, "Ocean", 8.00 A.M.

Printed by University of Sussex Printing Unit
